

Free resources for Home Learning

(Updated 13:40 18/3/20)

This is a mixture of phase and subject resources that are free (usually or due to offers from organisations during the Corona situation). I have tried to add some useful annotation to help you select the most appropriate resources with apologies for any inaccuracies on my part.

Journal Assignment:

You are now a historian. Starting on Wednesday, March 18, you will be keeping a hand written journal. Each day, you will detail what you are seeing in the news, how the world, how our nation, how your friends, neighbors, and family are responding to this pandemic.

When we return to school, you will be expected to turn in your journal. Each entry should be at least a hand written page.

You can also use one of your other talents as you see fit.

Drawing, poetry, etc.

But each day, Sunday-Saturday must be documented.

You are creating a primary source that can be used by people in the future to learn about our lives during this crisis from your unique perspective

Be authentic, Be honest, Be reflective.

Guiding Questions:

You can write anything you like about your experiences.

The following is a list of potential things you can respond to.

1. What did the government announce/declare/implement today?
 - Does it make sense?
 - Does it impact your life? Why or why not?
 - How did your family respond?
2. What is open in your neighborhood? What is closed?
3. What does your neighborhood look like? Are people walking around?
4. How is today different from yesterday for you, your family, our nation, the world?
5. Do you see any examples of racism, privilege, and income inequality in any of the events that happened today? (Locally, at the state level, nationally, or the world?)
6. Did you see anything today that gave you hope? Anxiety? Fear?
 - In person, in the news, or on social media?
7. What does your family need today that you might not have, have enough of, or have no access to acquire?

AT HOME challenge
