Dear Parents and carers of Nursery children

30 hours free childcare codes

I am making my final checks on the 30 hour free childcare codes for this term. I need to ensure that the 30 hour free childcare codes for all children are valid and are uploaded onto the wizard so we receive the funding for your child's 30 hours of education.

The 30 hour free childcare codes need to be reconfirmed by parents and carers to ensure that the entitlement to 30 free hours is still valid.

Please can I ask all parents to check their child's 30 hour code and reconfirm it if required. **If the code is not reconfirmed when required, your child will not be entitled to their 30 hour place and will only be eligible for 15 hours of free education each week.** Any further hours would have to be paid for.

Sorry to sound bossy about this- these are the rules of the DfE, not me or our school. I really don't want any of our children to miss out on their place. Please could you check as a matter of priority.

Yours sincerely
Miss Chappell
